COVID-19 INFORMATION

COVID-19 ALBERTA HEALTH DAILY CHECKLIST (FOR CHILDREN UNDER 18)

Overview

This checklist applies for all children, as well as all students who attend kindergarten through Grade 12, including high school students over 18. Children should be screened every day by completing this checklist before going to school, childcare or other activities. Children may need a parent or guardian to assist them to complete this screening tool.

Screening Questions for Children under 18:

 If the child answered "YES": The child is required to quarantine for 14 days from the last day of exposure. If the child develops any symptoms, use the AHS Online Assessment Tool or call Health Link 811 to determine if testing is recommended. If the child answered "NO", proceed to question 2. Has the child had close contact with a case¹ of COVID-19 in the last 14 days? Face-to-face contact within 2 metres for 15 minutes or longer or direct physical contact such as hugging If the child answered "YES": The child is required to quarantine for 14 days from the last day of exposure. NOTE: Individuals who previously tested positive for COVID-19 in the 90 days before being exposed to another case of COVID-19 are not required to quarantine. If the child answered "NO", proceed to question 3. Does the child have any new onset (or worsening) of the following core symptoms:	1.	Has the child traveled outside Canada in the last 14 days?	YES	NO		
 If the child develops any symptoms, use the AHS Online Assessment Tool or call Health Link 811 to determine if testing is recommended. If the child answered "NO", proceed to question 2. Has the child had close contact with a case¹ of COVID-19 in the last 14 days? Face-to-face contact within 2 metres for 15 minutes or longer or direct physical contact such as hugging If the child answered "YES": The child is required to quarantine for 14 days from the last day of exposure. NOTE: Individuals who previously tested positive for COVID-19 in the 90 days before being exposed to another case of COVID-19 are not required to quarantine. Not related to other known causes or conditions like allergies or neurological		Shortness of breath Continuous, out of breath, unable to breathe deeply, not related to other known causes or conditions such as asthma Loss of sense of smell or taste	YES	NO NO		
		Temperature of 38 degrees Celsius or higher Cough Continuous, more than usual, not related to other known causes or conditions				
		Shortness of breath Continuous, out of breath, unable to breathe deeply, not related to other known causes or conditions such as asthma Loss of sense of smell or taste				

If the child answered "YES" to any symptom in question 3:

- The child is to isolate for 10 days from onset of symptoms OR receive a negative COVID-19 test and feel better before returning to activities
- Use the AHS Online Assessment Tool or call Health Link 811 to arrange for testing and to receive additional information on isolation.

If the child answered "NO" to all of the symptoms in question 3, proceed to question 4.

Albertan

4.	Does the child have any new onset (or worsening) of the following other symptoms:			
	Chills	YES	NO	
	Without fever, not related to being outside in cold weather			
	Sore throat/painful swallowing	YES	NO	
	Not related to other known causes/conditions, such as seasonal allergies or reflux			
	Runny nose/congestion	YES	NO	
	Not related to other known causes/conditions, such as seasonal allergies or being			
	outside in cold weather			
	Feeling unwell/fatigued	YES	NO	
	Lack of energy, poor feeding in infants, not related to other known causes or			
	conditions, such as depression, insomnia, thyroid dysfunction or sudden injury			
	Nausea, vomiting and/or diarrhea	YES	NO	
	Not related to other known causes or conditions, such as anxiety, medication or			
	irritable bowel syndrome			
	Unexplained loss of appetite	YES	NO	
	Not related to other known causes or conditions, such as anxiety or medication			
	Muscle/joint aches	YES	NO	
	Not related to other known causes or conditions, such as arthritis or injury			
	Headache	YES	NO	
	Not related to other known causes or conditions, such as tension-type headaches			
	or chronic migraines			
	Conjunctivitis (commonly known as pink eye)	YES	NO	

If the child answered "YES" to ONE symptom in question 4:

- Keep your child home and monitor for 24 hours.
- If their symptom is **improving** after 24 hours, they can return to school and activities when they feel well enough to go. Testing is not necessary.
- If the symptom does not improve or worsens after 24 hours (or if additional symptoms emerge), use the <u>AHS Online Assessment Tool</u> or call Health Link 811 to check if testing is recommended.

If the child answered "YES" to TWO OR MORE symptoms in question 4:

- Keep your child home.
- Use the <u>AHS Online Assessment Tool</u> or call Health Link 811 to determine if testing is recommended.
- Your child can return to school and activities once their symptoms go away as long as it has been at least 24 hours since their symptoms started.

If the child answered "NO" to all questions:

• Your child may attend school, childcare and/or other activities.

Please note: If your child is experiencing any symptoms from the lists above, do not bring them to visit a continuing care or acute care facility for 10 days from when symptoms started or until symptoms resolve (whichever is longer), unless they receive a negative COVID-19 test result and feel better.
